THE FUNNIEST
ACT IN VAUDEVILLE
Unique, Sensational and Classic

AT THE ORPHEUM, THURSDAY, FRIDAY, SATURDAY

A Girl Scout

LOUISE GOLDEN is a western girl who can outstride and outshoot most men and who knows every inch of the great plains.

The picture shows her shooting Indians—at least imaginary ones—but her pose is excellent and her aim even better, for as a shot she has few equals.

How to
Keep Young

HOW often one hears people exclaim over the youthful appearance of one woman, while another of exactly the same age is placed in the old class. And it is true some women have the

in the raiment of sweet sixteen? It is something more than mere external. The secret of youth prolonged lies in the heart. Women who look young have simply never learned to become sour or suspicious or crabbed or to lose their faith in human nature.

Every time we lose our temper or permit ourselves to feel envy, suspicion or cynicism we poison our systems, yellow the complexion, cause a net-work of fine lines to settle around the

been. We make our features, actually shape and form them, by our own thoughts and modes of life.

See that old woman with the heavy bloodshot eyes and the triple chin. She is so incensed in fat she can scarcely waddle along, and her breathing more resembles wheezing than anything else. She is the victim of over-eating. And that other one, thin and sharp featured—envy and malice have worn her to skin and bone and jaundiced her drawn and withered skin. Why shouldn't she wither? She has not one good or noble impulse in her to keep her alive and fresh.

Then there is another still, stupid and dull eyed because she has no interest in life. She looked mature at eighteen old at thirty for there is nothing that takes youthfulness away from a woman's face quicker than lack of interest in everything in life. The more things she is interested in the younger her eyes her figure, her whole bearing, grows. The question of remaining youthful is merely one of personship, and it is within the power of every woman.

South Dakota the
Next State For
Equal Suffrage

THE National American Woman Suffrage association, for the first time in the history of forty years, will hold a mass meeting in New York city. This will take place in Carnegie hall, Nov. 17, at 8 o'clock. The national president, Dr. Anna Howard Shaw, will preside and speak. There will be one or more honorary chairmen, and the program will include speakers of national reputation. The object is to raise funds for the campaign next fall in South Dakota. The suffrage question is to be voted on then, and all suffragists hope there will be another state admitted to equal suffrage.

Governor Vessey of South Dakota will be a speaker. The pen with which he signed the bill in question has been placed in the hands of the suffragists. The governor firmly believes in the rights of women. Among the other speakers will be Mr. Burton Aylesworth of Denver, who will refute the arguments against the Denver women politicians with which the political machines have been filling the newspapers late by way of doing anti-suffrage propaganda. This will be one of the largest meetings ever held in favor of suffrage in the east.
